VERSO 1:

A G A
Now it seems I can't keep my mind off you
A G
My mind drifts back to better days we've been
E
through
A G A
Like sitting on the tops of the school grounds
A G E
The love I bitched about I finally found
D A G Gb
But now it's gone and I take the blame
D E A
So there's nothing I can do but take the pain ... why?
A G Gb (x2)
A G A
Now I dwell on what you remind me of
A G E

A sweet young girl who sacrificed her love
A G A
As for me I am blind without a cause
A G E
And now I realized what I have lost

D A G Gb
It was something real that I could've had
D E A
Now I play the fool who's stable's all gone bad ... why?

A G Gb (x4)

A G E
Tell me the words I might have said
A G E
It's pumping pressure deep inside my head
A G E
Was it bad enough to be too late
A G E
Just tell me the words I might have ate
G E
The words I might have ate ... - 3x

OUTRO: A G Gb
