VERSO 1:

A G A  
Now it seems I can't keep my mind off you  
A G  
My mind drifts back to better days we've been  
E  
through  
A G A  
Like sitting on the tops of the school grounds  
A G E  
The love I bitched about I finally found  
D A G Gb  
But now it's gone and I take the blame  
D E A  
So there's nothing I can do but take the pain ... why?  
A G Gb (x2)  
A G A  
Now I dwell on what you remind me of  
A G E

A sweet young girl who sacrificed her love  
A G A  
As for me I am blind without a cause  
A G E  
And now I realized what I have lost

D A G Gb  
It was something real that I could've had  
D E A  
Now I play the fool who's stable's all gone bad ... why?

A G Gb (x4)

A G E  
Tell me the words I might have said  
A G E  
It's pumping pressure deep inside my head  
A G E  
Was it bad enough to be too late  
A G E  
Just tell me the words I might have ate  
G E  
The words I might have ate ... - 3x

OUTRO: A G Gb
