## **Greg Holden - Boys In The Street**

```
Tom: C
                                                              Now that I'm older
  С
                                                              My daddy's heart's a little warmer
When I was younger
                                                              But he still won't hold me like my brother
                        F
My daddy told me I would never
                                                              And he still won't kiss me like my mother
                       C
Never amount to nothing special
                                                              [Chorus]
He'd come at me from every angle
                                                                                 C
                                                              He said, "You're a part of this family, I made you myself
He'd say, "You're the last thing I wanted, the last thing I
                                                              But the way that you act isn't good for your health
need
                                                              My son, stop kissing boys in the street
How am I gonna answer when my friends tell me
                                                                 Am
                                                                        G
                                                              My son, stop kissing boys in the street"

My son was kissing boys in the street"

                                                                     Am
                                                                           G
                                                              00000000
                                                                          G

                                                                     Am
                                                                  F
He tried to change me
                                                              Ohhhhhhh
                        F
                                                                         С
Said I'm embarrassing my country
                                                              My daddy's dying
How could I do this to my family
                                                              And he's finally realized I'm not lying
Do I wanna grow up being lonely
                                                              We sit in silence but we're smiling
[Chorus]
                                                              Because for once we are not fighting
                С
He'd say, "We've worked for our money, we've put you in school [Chorus]
                                                                                  С
Is this how you repay us? Do you think this is cool?
                                                              He said, "There was no way of knowing 'cause all I was taught
