                           Tom:
                                                             Let the fear fall away

Lately, I've been the quiet one
                                                                       F (C Bb F)

Waiting searching the lines of the songs you played for me

Sailing into the misty air
                                                             Head for the light of day
Fading bound for I don't know where

When I'm there I'll see
