

Guilson Queiroz - A Bio da Terra

Tom: G
Intro: D Em A7 D A7

A vida aqui na Terra foi planejada na primavera
E a natureza exorbitante fez a vida impressionante
Desde então... nas mãos do homem ...
a natureza ficou errante e a nossa vida impressionante

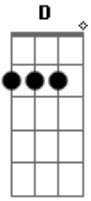

Mas com o tempo ganhamos cor
Ganhamos formas de amor
Nós refazemos os nossos planos
E corrigimos o nosso engano
A nossa vida é um oceano
É navegar , içar as velas e fechar - descer o pano
Como um poema parnasiano
