

Gustavo Bertoni - Patience

tom:

Intro: C
 I fell in love with her
 Inside my head
 Turns out my head
 Was a mess

So here I am again
 In the dark
 Might as well make myself a bed
 Here by the mirror

I don't wanna sing
 I don't wanna talk
 Just wanna be alone

I feel a relief
 Feeling all this grief
 After many months
 Of just trying to breathe

An answer to my indecent ways
 I guess we all deal with our pain
 Escaping our own maze

I don't wanna fight
 I don't wanna gloat
 Just wanna be alone

(F7M C)
 Give yourself some time

Patience, my friend
 You're still worth fighting for
 Give yourself some time

Patience, my friend
 You're still worth fighting for

I don't wanna sing
 I don't wanna talk
 I don't wanna fight
 I don't wanna gloat
 Just wanna be alone
