                                                                    A daunting landmine
Dbm
A daunting landmine
                                                                                      Α7
                                                                    Now look where we are
                                                                           Bm Db7
I watch where I step
                                                                    Stranded in webs sewed by memories
                Bm.
                          C#.
                                                                        E A
                                                                    Licked each other?s wounds
Cause its either guilt, fear or trauma
                                                                            Bm Db7 Gbm
I don?t trust my mind
                                                                    Rested our heads on our bodies
            Bm. Db7
                                                                                Bm
So I need my soul to be forward
                                                                   As I fell from grace
      Bm
                                                                                   E7
My body speaks
                                                                    A new time and space
                                                                                 A G Gb7
I hear it plead
                                                                    Almost went down down the rabbit hole
                   G Gb7
           Α
                                                                    [Final] Bm Abm G D Gb7
