                                                                  I thought I was the best thing that ever happened to you
[Verse 1]

Yeah, boy
Never thought this would happen
                                                                  I don't know why I cry

                                                                But I think it's cause I remembered for the first time
I don't know, know what I'm feeling
                                                                Since I hated you

  I don't know why I cry
                                                                   You know I was the best thing that ever happened to you

                                                                              G
                                                                   You know I was the best thing that ever happened to you
Since I hated you
That I used to love you
                                                                  Now look at what you lost, oh
  I don't know why I cry

That I used to love you
                                                                But I think it's cause I remembered for the first time
[Post-Chorus]
                                                                Since I hated you
                                                                That I used to love you
Oh, oh, oh, oh
I used to love you
                                                                  I don't know why I cry
Oh, oh, oh, oh
                                                                But I think it's cause I remembered for the first time
I used to love you
                                                                Since I hated you
                                                                That I used to love you
[Verse 2]
                                                                [Post-Chorus]
Are you gone?
There were no boundaries
                                                                Oh, oh, oh, oh
                                                                I used to love you
What, you just pushed me too far
                                                                Oh, oh, oh, oh
               Am
I guess nobody taught you
                                                                I used to love you
      Em
Nobody taught you how to love
                                                                [Outro]
[Pre-Chorus]
                                                                 I don't know why I cry
 Suitcase, band-aids
                                                                I don't, I don't, I don't
             \mathsf{Am}
 Pulling back out the driveway
                                                                I don't know why I used to love you
