

Sammy Hagar - Who has the Right

```
Intro: G C D
          G
Here's a message from the heart
Are you listening?
    G
Some things belong to you
And no one else
 G
Oh, one more life is taken
And that's one more than god allows.
          G
And there's another on the row shouting out
Who has the right?
And there's a war out in the streets
That no one is winning
Tell me when did a human life become so cheap
And how can we take away
What we did not create?
```

```
Beyond the power of the conscience
Beyond the power of the state
Tell me who
Who has the right?
Well no one has the right
Everyone's a victim C D
And everyone's to blame
                                          D
Oh and we are all so diff yet the same
        G
Oh and everyones a master
Of their own destiny
As long as one of us is chained C D
None of us are free
Are we making a mistake here
We there's no room for that
Who has the right?
Well no one has the right
```
