tom:  
 Capotraste na 3ª casa  
 Intro: C G D

[Primeira Parte]

I don't hate you  
 No, I couldn't if I wanted to  
 I just hate all the hurt?that?you put me?through  
 And that I blame myself for?letting you  
 Did you know I already knew?

[Pré-Refrão]

Couldn't even see you through the smoke  
 Lookin' back, I probably should have known  
 But I just wanted to believe that you were out sleeping alone

[Refrão]

Loved me with your worst intentions  
 Didn't even stop to question  
 Every time you burned me down  
 Don't know how; for a moment it felt like heaven  
 loved me with your worst intentions  
 Painted us a happy ending  
 Every time you burned me down  
 Don't know how; for a moment it felt like heaven

[Pré-Refrão]

And it's so gut wrenching  
 Falling in the wrong direction

[Segunda Parte]

On my tiptoes  
 But I still couldn't reach your ego  
 Guess I was crazy to give you my body, my mind  
 Don't know what I was thinking 'til now  
 Everyone thinks that your somebody else  
 You even convinced yourself

[Pre-Refrão]

Couldn't even see you through the smoke  
 Lookin' back, I probably should have known  
 But I just wanted to believe that you were out sleeping alone

[Refrão]

How did you sweep me right off my feet?  
 Baby, I can't keep(Fallin' in the wrong direction)  
 How did you sweep me right off my feet?  
 Right off my feet
