Intro: C G Em D C G  
Em D C G

[Primeira Parte]

Em D C  
I'm caught up in the everyday trend  
G  
Tied up by invisible thread  
Em D  
Walking down a razor-thin edge  
C G  
And I wake up tired, think I'm better off dead  
Em D C  
Been a few months since I crossed over state lines  
G  
Talk to my mom, fake smiles over FaceTime  
Em D C  
Drink all night till I can't walk in a straight line  
G  
Feel so low but I'm high at the same time

[Pré-Refrão]

G Bm C  
I can't keep my feet on the ground  
G Bm C  
And I'm nervous what you'll think of me now  
G Bm C  
I'm hoping that someone comes around  
D Em Bm C  
Helps me figure it out

[Refrão]

Em D C G  
I think that I should try to kill my ego  
Em D C G  
'Cause if I don't, my ego might kill me  
Em D  
I'm all grown up but somehow lately  
C G  
I'm acting like a fucking baby  
Em D C G  
I'm really not as happy as I seem

[Segunda Parte]

Em  
Still a little kid that can't make friends  
C D  
Wanna be invited, but I won't attend  
Em  
I've been having bad dreams my career could end  
C D  
'Cause I slip up when I should've played pretend  
Em D  
Turned eighteen and I left the city  
C G  
Said, "I wanna be cool, I don't wanna be pretty"  
Em D  
The voices all came crashing down  
C G  
And said, "You're too nice to run this town"
