

Halsey - You should be sad

tom:

Intro: **Bm G D Gbm**

[Primeira Parte]

I wanna **Bm** start this out and say

I gotta **G** get it off my chest

Got no **D** anger,?got?no malice

Just a?little **Gbm** bit of regret

Know nobody else?will **Bm** tell you

So there's some things I gotta **G** say

Gonna **D** jot it down and then get it out

And then I'll **Gbm** be on my way

[Pré-Refrão]

No, you're not half the **Bm** man

You think that you are **G**

And you can't fill the hole **D**

Inside of you with

Gbm Money, drugs, and cars

I'm so **Bm** glad I never ever

Had a **G** baby with you

'Cause you can't **D** love nothing

Unless there's

Gbm Something in it for you

[Refrão]

Oh, I feel so **Bm** sorry

I feel so **G** sad

I tried to **D** help you

It just made you **Gbm** mad

And I had no **Bm** warning

About who you are **G**

I'm just glad I made it out **D**

Without breaking down

And then ran so **Gbm** fucking far

That you would never ever **Bm**

Touch me **G** again

Won't see your **D** alligator tears

'Cause, no, I've had enough of them **Gbm**

(**Bm G D Gbm**)
