

# Hamilton Luduvica - Close Your Eyes

Tom: Bb

Close your eyes when I say how much I love you  
 Close your eyes when you feel your body and soul  
 A great love is the reason and I think it's enough

Close your eyes every time I dream of you  
 Close your eyes every time I want you more and more

A great love is a cuddle for the days when you feel alone  
 Every time the doors open again  
 Do not hide behind the fear  
 Every time my smile finds you  
 Do not feel afraid and follow me  
 Close your eyes and let my love suddenly enter your heart  
 Close your eyes and forget what surrounds us  
 A great love is a gift that rests your heart.
