

Hannah Storm - Till I Die

Intro: **Dbm** **Gbm** tom:

[Primeira Parte]

Kill me slowly

As you're entering my mind again

My foul old friend

A gentle whisper

Compelling words and I'm controlled again

When you say my name, hmm

[Refrão]

The heavy arms that pull me under

Someone save me from the devil's hunger

Hold me till the end

Love me till I die

[Segunda Parte]

Oh, ghostly devil

Won't you please leave this weakening soul

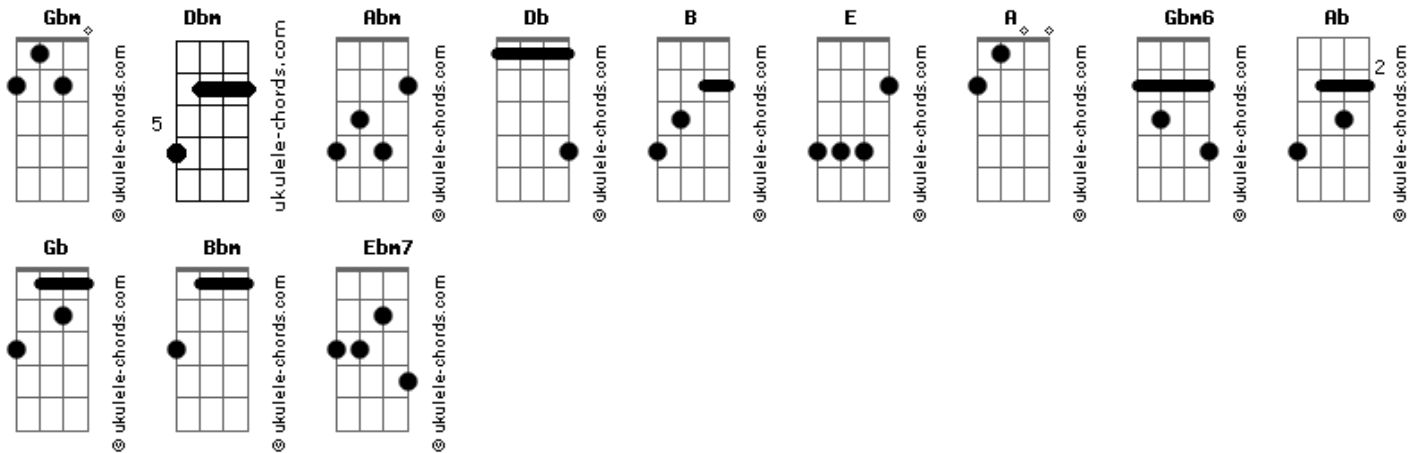

The one you stole

All dark and dusted

Soon there's nothing left to keep me warm

In this creeping cold, ah

Acordes

[Refrão]

Your heavy arms, they pull me under

Someone save me from the devil's hunger

Hold me till the end

Your heavy arms, they pull me under

Someone save me from the devil's hunger

Hold me till the end

Love me till I die

(**Db Gbm6**)

[Ponte]

Kill me slowly

Is this soon to end?

Say my name and free my hands

Crashing down to solid ground

But heavy arms, they pull me back again, ooh

[Refrão Final]

Hold me till the end

Your heavy arms, they pull me under

Someone save me from the devil's hunger

Hold me till the end

Love me till I die
