

# Hanson - Every word I say

Tom: C

[Intro:] F C F C

F  
You feel like liberation  
C  
You give me new sensation  
F  
You show me what I need and  
C  
You are my life completed  
  
Can't stop, can't break, who's driving?  
Sometimes there's no denying  
Till today I feel I can't lose  
I'm letting go of what I knew

F  
I want you for always  
Bb C F  
I hear your name in every word I say  
I'm a fool and I don't care  
Bb A Bb C F  
I hear your name in every word I say

Before you I was only  
What I let control me  
You are a revolution  
Against my own conclusions

G G Bb  
Till today I feel I can't lose  
C  
I'm letting go of what I knew

F Bb  
And now I say goodbye to  
C  
The way I used to be  
F Bb  
There is no room for question  
C  
Cause your name it sets me free

Yesterday's troubles harm me  
Today's are creeping in  
So let go of the world around me  
Cause your love is all I need

F Bb C  
I hear your name in every word I say
