

# Hanson - Get The Girl Back

Tom: Gb

She's about to walk away  
 So if you're gonna make her wanna stay  
 Tell her she's your moon and sun  
 Tell her that she's always been the one  
 You've gotta say it from the heart  
 'Cause she will know a fake right from the start

A girl like that deserves the best  
 So you've got to show her (show her!) that you're not like all the rest

It's about time that you put your cards back on the table  
 It's about time that you show her you're willing and able  
 It's about time that you get the girl back That you get the girl back on your side

You've got to get the girl back, get the girl back

Tell her she was always right  
 You were in the wrong, you can't deny  
 'Cause when she's caught somebody's eye  
 It'll be too late to apologize

Before she shuts you out  
 You've got to tell her (tell her!) tell her that there is no doubt

It's about time that you put your cards back on the table  
 It's about time that you show her you're willing and able  
 It's about time that you get the girl back That you get the girl back on your side  
 You've got to get the girl back, get the girl back
