

Hanson - Love song

Tom: C

[Intro:] F F7M F F7M Am7 G

F F7M F F7M
 The wind it blows through the trees
 Am7 G
 Claiming those innocent leaves
 F F7M F F7M
 And the thunder rolls these crashing seas
 Am7 G G G
 Like a tender kiss holds this heart in me
 C G
 In this life long love song
 Am F
 You can love right, you can love wrong
 C G
 In this love song you can love long
 Am F
 But if you love wrong it doesn't mean love's gone
 Mary was a young girl with a young girl's heart

All I can remember is I loved her from the start
 I was hers forever, she was mine too
 But something's wrong 'cause now she's gone tell what should I do

Am G C F
 And it doesn't mean love's wrong just because you're feeling low
 Am G C
 And it doesn't mean love's gone 'cause you feel like you want to let go
 Am G C F
 Well no one wrote in this book of love that you'd always know
 Dm C G
 I wish someone would have told me before

We talked about love a million times it seems
 Words come out our lips like we forgot what it means
 We Said we'd be together 'til death do us part
 But we said those words with only half our heart

I wish someone would have told me before

Acordes
