

# Hanson - Watch Over Me

Tom: Gb

I. Hanson / T. Hanson / Z. Hanson

[Intro:] Gb B Gb

She wakes and takes her place at night

And never bothers asking why

The mirror sheds no light at all  
The days turn into lesser days

Until there's only night

wouldn't help she's too far gone

Her time is up, it's five clock it never stops

And she says "please?"

And she says "please?"

And she says "please?"

Watch over me

I watch her slowly make her way

Down all the roads she shouldn't take

She always ends where she begins

The years go by, they're adding up

She clicks her heels, but she's still stuck

She's giving in, but won't give up, she'll never stop

And she says "please?"

And she says "please?"

And she says "please?"

Watch over me

And she says "please?"

And she is on her knees

And she begs and she pleads

She counts the time till her heart breaks

She's waiting for her next mistake

Don't give up on my youth, start believing

And you're down, and you beg, and you're pleading

Don't give up, cause tonight's too far gone
