

Harbour - Saddest Game

Tom: G
Intro: G

G
She's one and the same
Gets handed everything she ever wanted and came
From a background where her daddy's got the money
And her mom don't work for anything

G
She's got the prettiest face
But a lack of education, teachers gave her the A's
And all she's gotta do is flash a smile
And she's always gonna get her way

Em Gbm G C G
It's the saddest game
Em Gbm G C G
Well I ain't gonna play

G C
All the other boys, yeah, all the boys are on her
Well I don't really want her
To me she's just another

Em G C
Well I'm the only one who doesn't follow her and kiss her feet
And she wants me

(G)

G
She'll give me the look
For everybody else that's all that it ever took
Well I'm not falling in your lap and honey
I'm not getting caught up on you

G
And I'll drive her insane

She doesn't understand how I just don't feel the same
For the first time in her life instead of sun
Somebody's gonna rain on her parade

Em Gbm G C G

Well darling, some words should never leave your tongue
And pardon the things I said when I was young
Yeah it's over, yeah it's alright
