

# Harbour - With Love

Tom: **D**

**D**  
Who cares if it's wrong or right  
These feelings that i'm feeling are too hard to fight

**G**  
With you right here by my side, tonight

**D**  
And i think we're just misunderstood  
'Cause being in the wrong has never felt so good

**G**  
I feel like i always should  
Alive, alive

**D**  
Who's to say that i was wrong?  
Who's to say that we were wrong?

**G**  
Felt this way for far too long  
I am standing up with love

**D**  
You think that i am losing my touch  
But if you would take my hand

**G**  
I swear it wouldn't really matter much  
It's your choice

**D**  
Your body is a work of art  
And honestly i'm hopeless

**G**  
And i'm asking if you would just protect my heart  
(Protect my heart) 'cause it's yours (protect my heart)  
'Cause it's yours

**D**  
Who's to say that i was wrong?  
Who's to say that we were wrong?

**G**  
Felt this way for far too long  
I am standing up with love

**D**  
Things can change for good or worse  
Take a chance for what it's worth

**G**  
Fiends would talk and love came first  
I am standing up with love

**D**  
Circumstances all brand new  
Contemplating what to do

**G**  
Scolding faces, tension new  
Facing doubt, can we pull through?

**D**  
Picture perfect thoughts in lieu  
Keep me coming back to you

**G**  
It's time for me to make a move

**D**  
Maybe i'm in love with you

**D**  
Who's to say that i was wrong?  
Who's to say that we were wrong?

**G**  
Felt this way for far too long  
I am standing up with love
