

Harley Poe - Everybody Knows My Name

tom:
 Dm
 I'm the one, I am ignored
 When your teenagers are bored
 Foolishness will hand their careless lives to me
 They don't fear what they don't know
 Through their ignorance I glow
 As they flicker from this dream I'll set them free
 Dm
 Through cancer and disease
 I'll take with me whom I please
 No need to run, you can fight and face defeat
 Through religion and deceit
 F
 And science and conceit
 Try to stop me, but in the end I can't be beat
 Dm
 I'll be at it once again
 You'll all face me in the end
 It should be fun, as I swat you down like flies
 So when it's time for you to go
 Don't you cry, 'cause don't you know
 It's a point at once for every man to die
 Dm
 So what happens when you're dead?
 Ain't my problem but I've read
 You'll burn in Hell, for all eternity
 Life wasn't all that great

F
 But please make no mistake
 It gets much worse, after you've met me
 [Pré-Refrão]
 Bb F A Dm
 I'm the reason your sick ones pray to God as they lie there
 still
 Bb F A
 I'm the reason they cry out, because I kill
 The different sources I may use
