

# Harley Poe - Everybody Knows My Name

**Dm** tom:

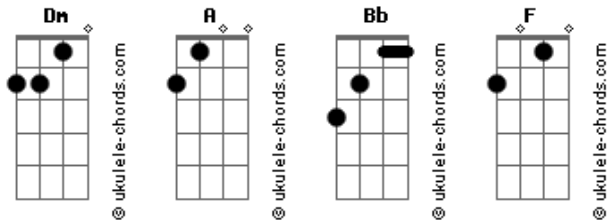

I'm the one, I am ignored  
 When your teenagers are bored  
 Foolishness will hand their careless lives to me  
 They don't fear what they don't know  
 Through their ignorance I glow  
 As they flicker from this dream I'll set them free

Through cancer and disease  
 I'll take with me whom I please  
 No need to run, you can fight and face defeat  
 Through religion and deceit  
 And science and conceit  
 Try to stop me, but in the end I can't be beat

I'll be at it once again  
 You'll all face me in the end  
 It should be fun, as I swat you down like flies  
 So when it's time for you to go  
 Don't you cry, 'cause don't you know  
 It's a point at once for every man to die

So what happens when you're dead?  
 Ain't my problem but I've read  
 You'll burn in Hell, for all eternity  
 Life wasn't all that great

## Acordes

But please make no mistake  
 It gets much worse, after you've met me  
 [Pré-Refrão]

I'm the reason your sick ones pray to God as they lie there still  
 I'm the reason they cry out, because I kill  
 The different sources I may use

[Refrão]  
 And everybody knows my name  
 Everybody knows my name  
 Everybody plays my game  
 And everybody knows my name

[Ponte]  
 As I close my eyes to die  
 I will not fear, I will not cry  
 As I travel down this road  
 I gave my all, I took my load  
 As I lay my head to rest  
 Oh God, you know! I did my best!  
 Was it you, or I who turned?  
 Whose fault is it That I must burn

[Final]  
 Whose fault is it? Whose fault is it?  
 Whose fault is it? That I must burn
