Open up your eyes, shut your mouth and see

A B

That I'm still the only one who's been in love with me

A B

I'm just happy getting you stuck in between my teeth

And there's nothing I can do about it

Broke a finger knocking on your bedroom door

I got splinters in my knuckles crawling across the floor

Couldn't take you home to mother in a skirt that short

But I think that's what I like about it

And there's nothing we can do about it

A B

Told it to her brother and she told it to me

E D B

That she's gonna be an angel, just you wait and see

A B

When it turns out she's a devil in between the sheets

A B

And there's nothing she can do about it
