

# Hateen - Brand New Day

tom:

Intro: D G A D

D Please take me back to my dad's white car again  
 D take me back to that room which I used to laugh  
 D I need that again, don't try to push me 'cause I will not  
 D understand

I really need to get back there

G Please tell me my friend

How did I get this pain?

I always thought I could be fine again

Just like I was yesterday

Now I'm waking up for another day

D Where is my old stereo?

G Where is my old computer?

D Where is my happiness?

G I need it back right now

Please don't put me down

I have something to live for now

D Don't fuck everything I'm doing

I'm working hard

G Please tell me my friend

How did I get this pain?

I always thought I could be fine again

Just like I was yesterday

Now I'm waking up for another day

G Please tell me my friend

How did I get this pain?

I always thought I could be fine someday

Just like I was yesterday

Now I'm waking up for brand new day

 Life is love you've been searching for all your life

G The friends away inside

D Each one of us

G Yet this pain is not enough

Gb To keep me away

D Inside my heart

There's a place with your name

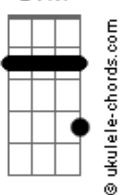

It's all broken down since 11/08/1997

D7M And I just wish you could be here with me again
