

# Hawk Nelson - From Underneath

Tom: **B**

**B**  
From underneath i wanted you **Gb**

To see the first thing that i ever poured my heart into  
**Gb**  
You'll never understand the pain that i've been through  
**B** **Gb**  
I'm not so sure you'll ever know

And so i'll make you understand the words that built my life  
**Abm**  
**Gb**  
Were not from you but from my father' hand

**Abm**  
Do you remember  
**E**  
That cold day in december  
**B** **Gb**  
Leaving everything you knew behind

**Abm** **E**  
I may never know how it feels to stand beside you  
**B**  
Or take your hand  
**Gb**

When i need some direction  
**Abm** **E**  
And i may never know what it's like to see you smile

**B**  
Back at me

**Gb**  
Or know you'd be proud of me

**B**  
From underneath i promise to  
**Gb** **Abm**  
Erase the past and let my heart forgive the former you  
**E**  
Replace the dark of old and start brand new  
**B**  
I never thought i'd see the day  
**Gb** **Abm**  
I walk toward the end of life and turn the other way  
**E**  
I'm reaching out to take my father's hand

**Abm** **E**  
I may never know how it feels to stand beside you  
**B**  
Or take your hand  
**Gb**  
When i need some direction  
**Abm** **E**  
And i may never know what it's like to see you smile

**B**  
Back at me  
**Gb** **E**  
Or know you'd be proud of me
