Baby, come around 'cause I need you  
Em G  
Baby, calm me down let me see you

Em G  
Let me show every single layer  
C Am  
Losing all my power just to have you  
Em G  
Hundred miles an hour thinking 'bout you

Every night gets a little tougher

How can I dream about another

Giving baby steps a new meaning

Won't you just meet me in the middle
