

# Hayley Kiyoko - Molecules

Tom: G

Em Bm  
 Pillars of my heart  
 D A  
 Everything got shattered in the dark  
 Em Bm  
 Tried to be evolved  
 D A  
 Does it really matter at all?  
 Em  
 Feathers on the red bed  
 Bm  
 Messy on the floorboards  
 D  
 Data in my head gets  
 A  
 Caught up in the drugstores  
 Em Bm  
 Make me feel again  
 D A  
 Make me feel again  
 Em Bm  
 So what should I do?  
 D A  
 All that's left is molecules of you  
 Em Bm  
 Tried to rearrange  
 D A  
 Did you feel that everything was strange?  
 Em  
 Dancing in the red rain  
 Bm  
 Tied up to the bedpost  
 D  
 Falling like a tear stain  
 A  
 Only for your cold ghost  
 Em Bm  
 Make me feel again  
 D A  
 Make me feel again  
 Em  
 I've lost you  
 Bm  
 Na na na na na na  
 Bm  
 I've lost you  
 A  
 Na na na na na  
 Em  
 I've lost you

Em Bm  
 Na na na na na na  
 Bm A  
 You, you  
 Em Bm  
 Keep me wide awake  
 D A  
 Every cell, I feel your body ache  
 Em Bm  
 Can we stop the fall?  
 D A  
 Does it really matter at all?  
 Em  
 Feathers on the red bed  
 Bm  
 Messy on the floorboards  
 D  
 Data in my head gets  
 A  
 Caught up in the drugstores
