

Heart - Tell It Like It Is

```
Tom: F
                                                              Know deep down in-side of me, I believe you love me;
                                                                                  F F7M F F
  Verse 1:
                                                              Forget your... foolish pride.
If you want, something to play with,
                                                              Chorus 2:
Go and find yourself a toy.
                                                              Life is too short to have sorrow,
       D7
                  Gm
Baby, my time is too ex-pensive,
                                                              We may be here today and gone to-morrow.
And I'm not, a little boy.
                                                              You might as well get what you want,
Chorus 1:
                                                                          C7 Gm7
                                                              So go on and live, baby go on and live...
If you are serious,
                                                              Verse 3:
Don't play with my heart, it makes me furious.
                                                               Tell it like it is,
                     Bb
But if you want me to love you,
          C7 Gm7
                                                              I'm nothing to play with; go and find yourself a toy. But
Then baby I will, girl you know I will...
                                                              D7
Verse 2:
                                                               Tell it like it is,
                                                                              Gm
                                                              My time is too ex-pensive, and I'm not your little boy.
Tell it like it is,
                                                               Tell it like it is...
         C7
                                                    F7M F
Don't be a-shamed to let your conscience be your guide. But
                                                              (Fade)
