**Am**  
I dont remember what we might have said  
**F**  
And I didnt bother to write it down any how  
**Am**  
Now all the memories spun like a web  
**F**  
And I cant get out, get out, get out.

**G** **F**  
I gave everything I got not to lose you,  
**G** **F**  
We chose to say goodbye but I choose you I choose you.

**C** **F**  
I keep building walls but youre always on my mind  
**F** **Am**  
Wont let them fall down Im tired can we give up  
**G** **F**  
the art of moving on, on, on.

**C**  
It keeps me up all night, all night, oooohhh  
**F**  
It keeps me up all night, all night, oooohhh

**Am**  
Feels like Im stuck here frozen in time  
**F**  
If it wasnt real then I wonder what really is  
**Am**  
And if theres a world where you could be mine  
**F**

Well thats where Id live, Id live, Id live-

**G** **F**  
Gave everything not to lose you, not to lose you.

**C** **F**  
I keep building walls but youre always on my mind
