

Heffron Drive - Everything Has Changed

Tom: E

Everything^E has changed since I met you

My heart^B was broken^E

Hope was overdue^B

Running empty^A

Running out of time^E

Thought I lost my mind^A

But everything^B has changed since I met you^A

Nothing is the same since I met you^B

My heart sometimes is easy to get due^B

With shadows of the past disturb my night^A

Make them run and hide^A

Cause nothing is the same since I met you^B

Here and now^A

Just hear me out^E

Through fear and doubt^B

I'd never let you down^A

I'd never let you down^E

Everything has changed since I kissed you^B

I never thought the love could be this true^A

When I thought that feeling couldn't last^B

You went and kissed me back^A

Cause everything has changed since I kissed you^E

Here and now^B

Just hear me out^E

Through fear and doubt^B

I'd never let you down^A

I'd never let you down^E

Here and now^B

Just hear me out^A

Through fear and doubt^E

I'd never let you down^B

I'd never let you down^A

Everything has changed since I met you^B

And I hoped that I have changed your whole world too^E

Here and now^B

Just hear me out^A

Through fear and doubt^E

I'd never let you down^B

I'd never let you down^A

Here and now^E

Just hear me out^B

Through fear and doubt^A

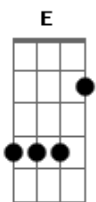

I'd never let you down^E

I'd never let you down^B

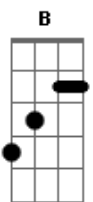

Everything has changed since I met you^B

And I hoped that I have changed your whole world too^E
