

Halloween - In The Night

tom:

Intro:

A

In the night I'm calling you

Be my guide, help me through

In the night I call your name

You're the light in times of shame

The songs I sing, all my love I bring for you

I always try to make things better, everything that has gone wrong

Mighty plans in the right direction, but very little has been done

Everyday when I try to get forward, I find myself another mile back

Help me fighting, help me breathing, why am I falling down instead?

Every useful minute seems to be the thought of you

Every hour seems like wasted, filled with things that I might do

Without love in my reactions seems the saddest thing, but it's true

In the night I'm calling you

Be my guide, help me through

In the night I call your name

You're the light in times of shame

The songs I sing, all my love I bring for you

Free from ourselves and free from this world we may find

The freedom we search, 'cause all that we need is inside

The hours we waste, we may not get back for a while

And when it gets dark, no chance will be there for a try

When I wake up early in the morning, I catch a book and jump inside

I fill my head with a million wonders, and try to fill the night with light

The moment when I get things clearer, I see another mountain to climb

And always when I think I'm nearer, I realize there is no time

In the night I'm calling you

Be my guide, help me through

In the night I call your name

You're the light in times of shame

Sometimes I cried after all I lied to you
