

Hey Monday - Arizona

Tom: E

It took two days
for me to figure out
This isn't working out
but I lost my way
I drove all night
just to be with you
But you weren't worth that view
you I gotta hit the brakes
Now you know get up and go

Refrão:

Arizona Arizona
A car wreck on
the highway
Now you're burning by
the side of the road
Arizona Arizona
Theres a million
miles to Florida
Now your history
I'm stranded
Get me out
I'm going home

Dbm B A E B

Deep in your soul
lies a lonely heart
That only ever comes
for you alone
And i cant relate so i
gotta leave you here
I can breathe without you
dear just start walking away
Now you know get up and go
(repete o refrão)

ponte:

Tell me how does that feel
With the Grand Canyon
Screaming at you Tell
me how does that feel
To see me when you go by
It took two days
for me to figure out
This isnt working out
I gotta hit the brakes
(repete o refrão 2 vezes)
