

# High School Musical 3 - Righth Here, Righth Now

Tom: E

Yeah, yeah

**G**  
Can you imagine  
What would happen  
**Bm**  
If we could have any dream  
**G**  
I'd wish this moment  
Was ours to own it  
**Bm**  
And that it would never leave  
**Em**  
Then I would thank that star  
**Bm** **G**  
That made our wish come true (come true), ohh Yeah  
  
**Em**  
'Cause he knows that where you are  
**Bm** **G**  
Is where I should be, too  
[Refrão]  
**D** **G**  
Right here, right now  
**Bm**  
Im looking at you  
And my heart loves the view  
**G**  
'Cause you mean everything  
**D** **G**  
Right here, I promise you somehow  
**Bm**  
That tomorrow can wait  
**G**  
For some other day to be (to be)  
**A** **G**  
But right now there's you and me  
  
**G**  
It this were forever  
What could be better  
**Bm**  
We've already proved it works  
**G**  
But in two thousand one hundred twenty-three hours  
**Bm**  
A bend in the universe  
**Em**  
Is gonna make everythinig (everything)

**Bm** **G**  
In our whole world change  
**Em**  
And you know that where we are (where we are)  
**Bm** **G**  
Will never be the same (oh no)  
Oh no  
  
**D** **G**  
Right here, right now  
**Bm**  
Im looking at you  
And my heart loves the view  
**G**  
'Cause you mean everything  
**D** **G**  
Right Here, I promise you somehow  
**Bm**  
That tomorrow can wait  
**G**  
For some other day to be (to be)  
**A** **G**  
But right now there's you and me  
  
**Em**  
We know it's coming  
**G** **Em**  
And it's coming fast  
  
**G**  
So let's make every second last  
**D**  
Make it last  
[Refrão]  
**D** **G**  
Right here, right now  
**Bm**  
Im looking at you  
And my heart loves the view  
**G**  
'Cause you mean everything  
  
**D** **G**  
Right here, I promise you somehow  
**Bm**  
That tomorrow can wait  
**G**  
For some other day to be (to be)  
  
**A** **G**  
But right now there's you and me  
**A**  
You and me  
**G**  
You and me, but  
**A** **G**  
Right now there's you and me
