Together, together everyone
                                                            And we see that

Together, together, come on lets have some fun
Together, were there for each other every time
                                                            And it shows
