

Hilary Duff - Someone's watching over me

```
Intro: Dbm Abm A
                                                            Someone's watching over me
Dbm Gbm B A
Found myself today, oh I found myself and ran away
                                                            It doesn't matter what people say
             Gbm
                                           Α
Something pulled me back, voice of reason I forgot I had
                                                            And it doesn't matter how long it takes
All I know is you're not here to say what you always used to
                                                            For leaving yourself and you'll find
                                                            And it only matters how true you are
But it's written in the sky tonight
                                                                                 В
                                                            Be true to yourself and follow your heart
So I won't give up, no I won't break down
Sooner than it seems life turns around
                                                                    В
                                                            Sooner than it seems life turns around
And I will be strong, even if it all goes wrong
                                                            And I will be strong, even if it all goes wrong
When I'm standing in the dark I'll still believe
                                                                  Dbm
                                                                                 В
                                                            When I'm standing in the dark I'll still believe
               B E
Someone's watching over me
                                                            So I won't give up, no I won't break down
Seen that red light, and it's shining on my destiny
                                                            Dbm B
          Dbm
                                                            Sooner than it seems life turns around
                               Gbm
Shining all the time, and I won't be afraid
                                                            And I will be strong, even if it all goes wrong
To follow everywhere it's taking me
                                                            When I'm standing in the dark I'll still believe
                        В
All I know is yesterday is gone, and right now I belong
To this moment to my dreams
                                                            That someone's watching over,
                                                            someone's watching over,
So I won't give up, no I won't break down Dbm B A B
                                                            someone's watching over me
Sooner than it seems life turns around
                                                            Oh someone's watching over me
And I will be strong, even if it all goes wrong
        Dbm
                     В
                                                            Final: E Dbm A B E
When I'm standing in the dark I'll still believe
```
