                                                             (tocar riff da introdução de novo)
versos: Db Ebm Gb Db tocando cada acorde duas vezes
                                                             (o ritmo fica mais lento nessa última parte)
                                                             VERSOS (Db Ebm Gb Db )
refrões: Db Ebm Gb Db acordes tocados mais vezes (no mesmo
                                                             I am touching without hands because your skin looks shy
tempo)
                                                             Don't try to reach my mind
VERSOS:
                                                             You're way too big inside
Db
   Ebm
                     Dh
                         Dh
                                         Fbm
                                                        (Db Come back to town man...!
I am touching without hands because you're deaf and blind
                                                             I am flirting with this guy just to pretend I'm fine
                     Ebm
                          Gb
                                            Db
                                                             Saliva mixed with lies
Don't try to reach my mind collecting my fake cards
                                                             My laugh is oversized
(Db )
             Db
                       (Ebm Gb Db )
                                                             Forever yours, right?
You're out of town man!
```

You chose the wrong side!

I am swimming in the dark 'cause all your friends are sharks Keep fighting for your truth, amazing feelings juice  $\ensuremath{\mathsf{RIFF}}$  FINAL (também tocado pela guitarra solo ao longo da música):
