Don't you ever let them stand in your way now

Try till you miss it then just go on back around

Man, I'm feeling fucking different

I see you looking like I'm different

So go on, treat me like I'm different

'Cause I'mma live it like I'm different, yeah

But the world never change when you wanna change

And the people never say what you wanna say

So go and live your life like you don't give a fuck

'Cause I been runnin' through this life and still can't get

enough

Don't you ever let them stand in your way now

Try till you miss it then just go on back around

Man, I'm feeling fucking different

I see you looking like I'm different

So go on, treat me like I'm different

'Cause I'mma live it like I'm different, yeah

But the world never change when you wanna change

And the people never say what you wanna say

So go and live your life like you don't give a fuck

'Cause I been runnin' through this life and still can't get  
enough
