                                              Ε
You'll always be my Day 1
               Em
Day zero when I was no one
I'm nothing by myself, you and no one else
                Em
Thankful you're my Day 1
Thankful you're my
I got lucky finding you
            Cm
I won big the day that I came across you
□□Cause when you're with me, I don't feel blue
Not a day goes by that I would not redo
Everybody wants to love
It's easy when you try hard enough
You'll always be my Day 1
               Em
Day zero when I was no one
I'm nothing by myself, you and no one else
                Em
Thankful you're my Day 1
Thankful you're my Day 1
When I first met you, it just felt right
```

```
It's like I met a copy of myself that night
I don't believe in fate as such
But we were meant to be together thatas my hunch
Everybody wants true love
It's out there if you look hard enough, enough, enough
You'll always be my Day 1
               Em
Day zero when I was no one
I'm nothing by myself, you and no one else
                Fm
                       Cm
Thankful you're my Day 1
Thankful you're my Day 1
Hour by hour, minute by minute
I got mad love for you and you know it
I would never leave you on your own
I just want you to know
You'll always be my Day 1
               Em
Day zero when I was no one
I'm nothing by myself, you and no one else
                 Fm
Thankful you're my Day 1
Thankful you're my Day 1
```
