

Hope Tala - Summer In Paris (Interlude)

tom:

Life's supposed to be good in the summer
 Baby, you will never find another who
 Knows the sun like I do
 I gave you all my loving
 Maybe it was for nothing
 'Cause who knows how you feel now
 The apple's fallen off the bough
 And the tree's alone
 I gave you all my loving baby
 Yellow clouds I'm going crazy
 Lazy summer thoughts are hazy
 Maybe it was a dream
 Variation on a theme
 Too familiar it seems
 And the skyline stole
 Your Parisian soul

You want somebody to hold
 And you miss
 Summer in Paris
 Summer in Paris, oh, you do
 And the skyline stole
 Your Parisian soul
 You want somebody to hold
 And you miss
 Summer in Paris
 Summer in Paris, oh, you do
 You do, you do
 We could stay here forever
 Love you no matter the weather
 Summer's as light as a feather
 We could stay here forever
 We could stay here forever
 We could stay here (Forever)
 (Stay here, stay here)
