

Hot Mulligan - Deluxe Capacitor

tom:

Intro: D

It's been two years now since I have emptied out
 Any Swisher Sweets for blunt wraps
 Just to get high by myself
 And if this is progress
 Tell me why I get so hung up over the same shit
 Like that dress you wore in high school
 I guess that meant more to me than it did to you

I love you, you know
 I could never compose my thoughts or a song
 So I guess I'll get stoned by myself
 As if I have anyone else to run to
 And every day I contemplate this life I made
 But I still long for better days

(D G)
 (Bm D G)

Don't you turn back on me
 I brought your favorite CD
 We'll sing every high note off key
 Somehow it always made sense to me

Acordes

And the drives we made to see the lake
 I thought about it yesterday
 And I'm sure that you did too
 Don't forget that no one knows you better than I do

I love you, you know
 I could never compose my thoughts or a song

So I guess I'll get stoned by myself
 As if I have anyone else to run to
 And every day I contemplate this life I made
 But I still long for better days
