

Houses On The Hill - Fall Into You

```
tom:
           D
                                     Gb
Hey, I wish you could see yourself
Just sitting there on my chair
I'm staring at you, you don't even notice
Should've told you straight away
                   Bm
You don't have to be afraid anymore
I know you would've noticed
You'll know
      Bm
You'll know
 D
That I won't let you go
   Bm
Put your arms around me and I'll let you know
                Gb Bm G
How it feels when time goes slow
                       Bm
And I won't let it rush when I see you dance
                D
And the moment comes when I fall and time goes slow
         D Gb
I fall into you
```

```
I fall into you
Hey, I wish I could show you more
'Cause baby you deserve some more
                G
But still you're here and that's what I adore
                          Gb
Should've told you straight away, everything I had to say
But I'm afraid and I know you would've noticed
       Gb
You'll know
       Bm G
You'll know
That I won't let you go
      Bm
Put your arms around me and I'll let you know
      D
              Gb
How it feels when time goes slow
    D A
And I won't let it rush when I see you dance
                           D
                                                Bm G
And the moment comes when I fall and time goes slow
          D Gb Bm G
I fall into you
           D Gb Bm G
I fall into you
```
