

How I Met Your Mother - Night Night Little Marvin

Tom: G

Night night, little Marvin
 Stars twinkle for you
 The Dreamland train's a-chuggin
 All your dreams will come true
 And the horsie says, Good night

And the birdie says, Good night
 And the elephant says, Good night
 And the skeleton playing his own rib cage says Good Night
 And the robot says, Good night
 Enough with the damn music!
 And Mr.Nesbit says, Good night
 And the whole world says, "Good night"
