tom:

Intro: **Am** **Am**

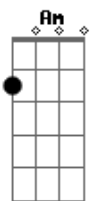

[Primeira Parte]

I once kneeled in shaking thrill **Em**
I chase the memory of it still **F**
Of every chill **Am**
Chided by that silence of a hush sublime **Em**
Blind to the purpose of the brute divine **F**
But you were mine **Am**
Staring in the blackness at some distant star **Em**
The thrill of knowing how alone we are, u **F**
Nknown we are **Am**
To the wild and to the both of us **Em**
I confessed the longing I was dreaming of **F**
Some better love **Am**
[Refrão]

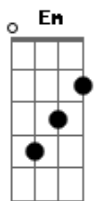

But there's no better love **G**
Beckons above me and there's no better love **F**
That ever has loved me **G**
There's no better love **E**
Darling, feel better love **F** **C**
Feel better love **F** **Am**
[Segunda Parte]

And I've never loved the darker blue **Em**
Than the darkness I have known in you **F**
Own from you **Am**
You, whose heart would sing of anarchy **Em**
You would laugh at meanings, guarantees **F**
So beautifully **Am**
When our truth is burned from history **Em**
