

Hugh Grant - Pop Goes My Heart

Tom: **G**

I never thought that I could be so satisfied
 Everytime that I look in your angel eyes
 A shock inside me that words just can't describe
 (And there's no explaining)
 There's something in the way you move, I can't deny
 Every word from your lips is a lullaby
 A twist of fate makes life worth while

Gb

You are gold and silver.

[CHORUS]

I said I wasn't gonna lose my head, but then
 POP! Goes my heart (pop goes my heart)
 I wasn't gonna fall in love again, but then
 POP! Goes my heart (pop goes my heart)
F#m-A
 And I just can't let you go,
 I can't lose this feeling.

Acordes

(during 'pop goes my heart'answer)

[VERSE 2]

These precious moments, we have so few
 Lets go far away, where there's nothing to do but play
 You showed to me that my destiny's with you
 (And there's no explaining)
 Lets fly so high, will you come with me tonight
 In your dress, I confess, you're the source of light
 The way you shine in the starry skies
 You are gold and silver

[CHORUS]

Solo

A twist of fate makes life worth while,

Gb

You are gold and silver.
