

# Hush Kids - Color Of Sadness

tom:

G

Em G

The color of sadness

Is empty, empty lines

Fear is a fortress

Around me, around me

Heavy is the darkness

Thicker than the blood I bleed

River of loneliness

Flooding, flooding me

Running down the highway in the middle of the night

With the white lines in the back of my, back of my mind

Sky is falling sideways and everything inside

Is changing, better hold on, better hold on tight

Hold on, better hold on, hold on tight

Color of sadness

D  
Living, breathing, keep it inside

In and out of focus

Falling, falling behind
