

Hush Kids - Talking To Myself

tom:

G

Bm G A

When you turn the key, I go and take my place

I swallow words I don't want to waste

You can only say, say the same thing so many times 'til

they lose their meaning

I shout down the hall but nothing comes back

I get the feeling that I'm talking to myself

I get the feeling that there's nobody else

This is a one-way conversation

We're gonna break without communication

I get the feeling that I'm talking to myself

I get the feeling that I'm talking, talking to myself

Playing broken games of telephone

The message missed for so long

What are you holding, holding on to?

G A

What are you worried that I'll learn about you?

I shout down the hall but nothing comes back

I get the feeling that I'm talking to myself

I get the feeling that there's nobody else

This is a one-way conversation

We're gonna break without communication

I get the feeling that I'm talking to myself

I get the feeling that I'm talking, talking to myself

Talking to myself

I get the feeling that I'm talking to myself

I get the feeling that there's nobody else

This is a one-way conversation

We're gonna break without communication

I get the feeling that I'm talking to myself

I get the feeling that I'm talking to myself

I get the feeling that I'm talking to myself

I get the feeling that I'm talking
