

Ian Carey - Sos

Tom: Eb
Intro: Cm Ab Bb

When the cloud needs sunlight
the North Star will catch you (yeah)
groove on space and on time
the music will find you (ooh yeah)

Like the sun in the sky
I'll never go down down down
like a bird needs to fly
we all need to love now

You will be my sun, moon & stars
to guide me to the land up in your heart
hold on, hold on

I'm sending out an S.O.S.
You will be my sun, moon & stars
to guide me to the land up in your heart

hold on, hold on
I'm sending out an S.O.S. (eh)
Everybody going to love each other
and spread the love around the world
cause we are the future
So everybody get together and sing with me
Alright

I'm the river that flows
deep into your ocean (yeah)
like a thorn on a rose
I'll be your protection (ooh yeah)

Like the sun in the sky
I'll never go down down down
like a bird needs to fly
we all need to love now
(Refrão)
