

# Ian Carey - Sos

Tom: Eb  
Intro: Cm Ab Bb

When the cloud needs sunlight  
the North Star will catch you (yeah)  
groove on space and on time  
the music will find you (ooh yeah)

Like the sun in the sky  
I'll never go down down down  
like a bird needs to fly  
we all need to love now

You will be my sun, moon & stars  
to guide me to the land up in your heart  
hold on, hold on

I'm sending out an S.O.S.  
You will be my sun, moon & stars  
to guide me to the land up in your heart

hold on, hold on  
I'm sending out an S.O.S. (eh)  
Everybody going to love each other  
and spread the love around the world  
cause we are the future  
So everybody get together and sing with me  
Alright

I'm the river that flows  
deep into your ocean (yeah)  
like a thorn on a rose  
I'll be your protection (ooh yeah)

Like the sun in the sky  
I'll never go down down down  
like a bird needs to fly  
we all need to love now  
(Refrão)
