```
```
        C    G    D
Brick by brick

I'm building a house where I can think
And have some balance and dignity
I'm building a house where no one can hurt me

I'm buidling a house where the weak are strong
I'm building a house with a real song
I'm using a faith that is immortal

I'm building it with simplicity
And the way that we feel, you and me
I'm building it with what I believe in

So get off my dick
'cause I'm building this
Brick by brick
Brick by brick
Brick by brick

          D           G
Now I'm looking at just a little time
       Em
So be it
            A
I want to
 D        C
be true to my simple heart
       Em                    A
And not put nothing else above it
