

Iggy Pop - Till Wrong

Tom: **D**

(intro)

(verso)

I took a poundin'
From the radio today
I heard the radio say some piece of shit
Was it the sound of today?

I took a bitin' 'beating'
When I saw my TV play, I saw my TV play
Over and over
And there were no escape

The box is hallow
And that riff is fucking dead,
That riff is fucking dead, but the riff is poundin'
In my fucking head

They're gonna push it
Until false is true
Until day is night, they're gonna push it baby
Until wrong feels right

It's a big industry
And they can beat my brain
With houses and wars and chains, they are insane
But they can beat my brain

God and his captains
They won't pull a fucking plug
They won't pull a fucking plug and give the skies
Back to the birds and bugs
